

DIRECTOR OF CENTRAL INTELLIGENCE
Security Committee

INVESTIGATIVE STANDARDS WORKING GROUP

SECOM-D-035

4 February 1982

MEMORANDUM FOR: Members, Investigative Standards Working Group (ISWG)

FROM:

Chairman

STAT

SUBJECT: Conversion of ISWG to a Standing Subcommittee and
Revision of DCID 1/11 to Reflect this Conversion

1. As you are all aware, the Security Committee has agreed to the conversion of our Working Group to a subcommittee. Since, over the past few months, prior to my arrival, the group has been involved in areas outside of the actual one of "Investigative Standards" it has been suggested that the Subcommittee be re-named the "Personnel Security Subcommittee." In connection with that name (or another one of our choosing) it will be necessary to insert an appropriate set of functions within the newly written DCID 1/11.

2. Attached for the information of all members is a "strawman" paper put together by the writer with some suggested language for DCID 1/11. You will note that Security Awareness, as a larger part of "Personnel Security" has been set forth within this paper as a "subset" under the new subcommittee. It is requested that all members consider the following points:

- a. A name for the subcommittee.
- b. The attached strawman paper.
- c. Whether or not security awareness should come under our aegis.

3. Since most of us (particularly the writer) are heavily involved in the Adjudicators' Seminar next week, we will attempt to schedule a meeting either the last week of February or the first week of March to discuss this whole matter. Your telephone comments are welcomed.
